Say that you like me the way I am
just take some time out to
understand
it may not be much but I do all that
I can
So say something nice

I never do it to one of you
I'd say something nice if it wasn't
true
I'd make you feel better when you
feel blue
So say something nice

Say something nice
(who do you think you are)
Say something nice
(who do you think you are)

I wanna hear that I'm beautiful
but you wouldn't say it if I were
wearing diamonds and a coat of fur
you wouldn't say something nice
Tell me you think my hair's real nice
don't stand around a criticize
can't you understand when a person
tries
You say something nice

Say something nice
(who do you think you are)
Say something nice
(who do you think you are)
