"Stop, Look And Listen"

Visit "[Stop, Look And Listen](#)" on MotoLyrics.com

I was walking down the street
just the other day
I caught a glimpse
of life vivid reality
I saw a man on the street
had no clothes or shoes
these are signs of the times
that's what they say

Everybody better
stop look and listen
stop look and listen
stop look and listen
to your heart

The prophets of the times
are written on the street car walls
can't you seem them crying
can't you hear them call

Mother mother children still
got to grow
father father where do we go

Stop look and listen
stop look and listen
stop look and listen
to your heart

Space age assures us life will
go on
and everybody trying to believe
forget the future
think about right now
somehow seem to be the growing
theme
Prophets of the times
are written on the street car walls
can't you seem them crying
can't you hear them calling
Mother mother children still have

to grow
father father where do we go

Repeat chorus

Space age assures us life will
go on
and everybody trying to believe
forget the future
think about right now

Repeat chorus

Space age assures us life will
go on
and everybody trying to believe
forget the future
think about right now

Repeat chorus

Forget the future
think about right now Repeat chorus repeat chorus
repeat chorus
