Music :: Lydon/Harris/Oliver; Lyrics :: Bryant

#### Verse 1:

The thought, a breakdown of human science  
A deafened meaning of nothing to come  
Silence breaks the wall's resistance  
Exposing my broken heart's remorseful remains  
Existence means not as much as before  
As for it seems part of me has died  
Struggle for the answers, bound to land  
In a pool of buried memories

#### Pre-Chorus:

Everyone has left me to die, knowing not what is to  
come  
For fear of feeling trapped and forever drowning in  
darkness

#### Chorus:

Possessed by the will to find - what I once was  
Human soul lost within a beast - forever in darkness  
Demons call to me more so now - than ever before  
Hoping to make me lose sight - of the truth

#### Verse 2:

Pain, regret becomes a part of the everyday  
Way of life and lost in it's course  
All the fog that blinds my mind without vision  
My eyes see nothing yet feel agony  
That builds the wall's resistance  
Brick by brick, I'm falling apart back to the start  
As the wall heightens I see it's made  
Of all my untouched dreams

(Repeat Pre)

(Repeat Chorus)

#### Verse 3:

Looking back on what was once there  
A blank haze seems to fill my empty stare

Once again the pain shall arise  
And haunt me forever more  
I'm not afraid of what path I chose  
Though I may be condemned to this hell  
All and all my eyes shall tell a story  
That shall live for all eternity

(Repeat Pre)

(Repeat Chorus x2)
