

Summer Donna

"Summer Fever"

Visit "[Summer Fever](#)" on MotoLyrics.com

Winds may come and the winds may blow
but there's no wind can cool me of my fever, summer
fever

time of love, time of year
temperature's rising, our bodies near in fever, summer
fever

a heat-wave run, a dog-day night
we're making love, things are right, it's fever, summer
fever

you burn so deep with your love so sweet
and you satisfy and mystify my fever, summer fever

body to body, arms entwined
locked in your love, feeling fine with fever, summer
fever

time of love, time of year
temperature's rising, our bodies near in fever, summer
fever

winds may come and the winds may blow
but there's no wind can cool me of my fever, summer
fever

you burn so deep with your love so sweet
and you satisfy and mystify my fever, summer fever

fever, summer fever fever, summer fever
