"Walk Away"

Just another emotion
is this something more
if it's only a passionate phase
I'd rather just close the door
Turn away
turn away
turn away
Walk away
walk away
walk away

Repeat (1)

Walk away when you know that I need you
walk away when you hear me call you
(don't) walk away don't you see that I want you
here by my side

(Don't) walk away when you know yhat I need you
(don't) walk away when you see me coming
(don't) walk away when you know that I need you
by my side

(2)

I'm sure that I'll get over you
it'll take me a while you see
next time, there won't be no next time
save all my feelings for me
turn away
turn away
turn away
Walk away
walk away
walk away (1) Repeat (2) repeat
