[Chorus](Slug)

You don't know me but you'd like to  
Why'd you think I stood beside you?  
Not concerned with how this might fall  
Nature become prowl at nightfall

(Grouch)

When the sun begins to dim  
And eventually the day dies  
And the mood prepares to sway  
That's where another way lies  
Glow of the liquor store lights  
Set the scene for no rights  
Let's convene, discuss the scheme  
And hope it flows how we dream  
Tonight can make or break you if you let it  
Someone set it out for you to let it out  
Now don't regret it  
Get embedded to the back drop  
Positioned there with your cash crop  
Envision night as the last stop  
Don't miss the train  
It's time to gain, strain, aim, fire  
Blame, reign, fuck and then retire  
I'm liar past eleven, after one I'm on the run  
Till the sun comes up tomorrow  
I'm working, you're having fun  
Not too devious, but that's me  
Spontaneous if you ask me  
But then again, I'm blending in.

(Sunspot)

Step to the beat, walk to the beat  
Talk to the beat, live to the beat  
Rock to the beat, fuck to the beat  
Dance to the beat, pay to the beat  
Fight to the beat, you get I-I-lost to the beat  
Police walk the beat, kill to the beat  
Steel to the heat, terrorize kill no retreat  
Prowl to the beat, how did a V-O weak scandal oh spray  
vandal

Walk the streets I hear footsteps on the streets  
Someone's following me on the streets  
Like racism on the streets  
Can't even have a new car on the streets  
Police prowls on the streets  
They got you sittin' on the streets  
Runnin' ya L's, what in the hell?  
Runnin' on tell, they see a black man they get scared as  
hell  
Like did somebody escape from jail  
You feel em' prowlin' when you walkin'  
Some rooms when you walk in like boom  
I wanna just break shit, I wanna re-create shit  
I wanna take shit you say and use it against you  
Act a damn fool like crackheads do  
Like your mama do

[Chorus](Slug)

You don't know me but you'd like to  
Why'd you think I stood beside you?  
Not concerned with how this might fall  
Nature become prowls at nightfall

(Slug)

Dusk, thus the beginning is on until dawn  
Trust regardless of the daily  
Really nothings wrong  
I'm still breathin' and here's another evening  
From the fortress  
I leave for my course of tonight's achievements  
There's no grievance in my pocket  
Just a couple of dollars, a pen and hopefully my wallet  
Because my man over here has got the hook up at the  
front door  
Long as my ID's right what more could they want for?  
Yeah we in there  
Like fluoride, off the wall on the left side  
A room full of pride, I'm consumed by the tune applied  
This fuckin' DJ is tight man  
I can already feel the minutes being added to my life  
span  
MC Lyte paper thin drink tickets from the staff  
Now it's time to make a friend and see if I can make  
her laugh  
Hey princess, I got a lot of dialog  
So I'm gonna line it up for you to get high and try to  
follow  
Light up another false sense of security  
Play a game of twenty questions  
You can test my purity  
And as the world comes down on me

And as I go down on herâ€¦ night prowler

(PSC)

I'm out when the freaks come out

Way after dusk

After the time when the opening acts get they time to  
bust

The nightshift I prowl and observe like the owl

Surroundings minus the scowl

Wise and well endowed

In the mental! Well renowned

Ghetto pass every town

PSC! Nice 2 meet you, oh you know about this wow!

Your ex-boyfriend showed you all about this how?

Can I thank him for training such a beauty

It fits my style

Compliments exchanged

Plus 5 dollars change

Signed my name on the poster

And I kept it in the holster like I'm supposed ta

Now, what would you do in the clutch

If you get a pussy hug after dusk?

[Chorus](Slug)

You don't know me but you'd like to

Why'd you think I stood beside you?

Not concerned with how this might fall

Nature become prowl at nightfall
