Cece (plus Whitney):

It's one on one I'm talking
I'm talking me and you
Do you believe I love you
And you say I know you do
I'll never leave you lonely
I'll be there I know you will
And when you learn you trust me
I'll take you somewhere far away
No need for memories, yesterday's gone

Chorus:

Celebrate new life
Beyond the Milky Way
Leave your cares behind
Leave them right away
There's a song that rings
Sing oh happy day
Ain't it good to know
Love is here to stay

Bebe (plus Whitney):

It's one on one I'm talking
I'm talking me and you
Do you believe I love you
And you say I know you do
I'll never leave you lonely
I'll be there I know you will
And when you learn you trust me
I'll take you somewhere far away
No need for memories, yesterday's gone

(Chorus), (Chorus)
(ad-libs)

Whitney: Celebrate!!
