"Love Is"

Visit "[Love Is](#)" on MotoLyrics.com

Love is, what we make it
We can make it something, love is
So don't desert me
Instead, learn to trust me
An love is, what we make it
So, let's make it love

So love is
Give and taking, oh
So making the best of nothing
Let your children's be one of compassion
And love is, what we make it
So, let's make it love

Why work against the grain to try so hard to grow
Why should we work in vain when in your heart you
know

Work against the grain to try so hard to grow
Why should we work in vain when in your heart you
know

Love is, sacrafices
Sweet devices
Toward one another, so let's discover
Why don't we discover
Let's all discover
What love has undercover
I found that love is give and taking
Love is sacraficing
Love is what you make
let's make it love
Sweet love
Love
Words
