Sometimes life can make you crazy
It can really put your body to the test
You try so hard to make sure everything is right
And you find you've only wound up with a mess
It's a common situation
Even though you feel abandoned and alone
Child, you ain't the first to experience the hurt
So don't panic when you hit the danger zone
What you need's a little change of heart
Forget this fear and frustration
Love will always play the greater part
When your battles wear you down
Here's my advice (mm)

Chorus:

When you're feeling down and out
And you've got troubles on your mind
Love will save the day
When you're feeling full of doubt
And fear has got you in a bind
Love will save the day
When your world's falling apart
All you have to do is say a prayer
And love will save the day
There's an answer in your heart
So let your light shine on my dear and
Love will save the day (5X)

Many things in this world bring you down
It's a wonder you can make it through the day
Well you can't sleep cuz your problems are too deep
And there's always something getting in the way
And when you turn on the evening news
Mass confusion is the only thing you'll see
Well there's no question
That we need a new direction cuz
Cuz we all could use some peace and harmony

What you need's a little change of heart
Forget this fear and frustration
Love will always play the greater part

When your battles wear you down
Here's my advice
Here's my advice!

Repeat Chorus

Love is gonna save the day
You gotta believe it
You gotta believe it
Na na na na na na na na
Na na na na na na
yeah yeah yeah yeah yeah
So if you need a little change of heart
Forget this fear and frustration
Cuz love will always play the greater part
When your battles wear you down
Here's my advice
Here's my advice!

Repeat Chorus

Love is going to save the day (uh-huh)
You gotta believe it uh-huh
Love is gonna save the day
Love is gonna save the day yeah yeah
Love will save the day
Hehehe
