Side One: STOP THE MADNESS 4:51

Side Two: STOP THE MADNESS 7:09 (Dance Version)

Whitney's voice can be heard on both sides. catalogue number: MCA-23614

I believe that together you and I can save a life today. We can stop a killer from reaching into minds and throwing lives away. WHITNEY: Drugs are causing pain and everyone's a loser in this deadly game that's played. It's insanity. We know that dope is slavery. And we've got to be free... come on now, we've got to stop the madness.

Stop the Madness now Stop the Madness Stop the Madness now.

Tell me what you're doing trying to get some pleasure on an empty high. Only fools will tell you using drugs is really a victimless crime. There are casualties standing at the graves of children. Feel the tears they cry. Take a stand today; maybe it's your life you'll save. You know there's got to be another way; everybody let me hear you say...

Stop the madness Stop the madness now Stop the madness Stop the madness now

Brother, we heard you cry for some assistance. Drugs are making your mind a man-made hell. You thought that using dope would be a party. Now you're a prisoner in a cell crying to be free. You wanna stop the madness.

Stop the Madness now Stop the Madness Stop the Madness now.
