When I was a kid, I'd fly around and Peter would
mention
Don't be afraid to die, cause to die would be an awfully
big adventure
One day I stopped believing when my friends say
they're so full of me.
I used to be a real boy, with real plans, now I'm just
reality TV
I used to be your knight in shining armor, and I'd
rescue you from hell
Baby I'd stare into the mirror, and I say to myself,

I've spent too many nights watching "How I Met Your
Mother" alone
Now I'm searching for my yellow umbrella, oh then I'll
take her home
Baby I just want to be legendary
Yeah we all just wanna be legendary
oh oh

I'm done chasing actresses
I'm full of love and they're all full of shit
And now I'm stumbling out the bar
One more fame-monster story, I'll be sick
One day I stop¹—ed believing in all the ones
The magic had died
I just need to accept, friends grow up and lovers will lie
Oh I used to be James Dean, now it's celebrity rehab
hell
I swear that I could be amazing, I just need a little help

I've spent too many nights watching "How I Met Your
Mother" alone
Now I'm searching for my yellow umbrella, oh then I'll
take her home
Baby I just want to be legendary
Yeah we all just wanna be legendary
Oh oh

take her home
Baby I just want to be legendary
Yeah we all wanna be legendary to somebody
Yeah somebody oh no
