Hey there, let me break it down.
Oh, you're the song in my head.
Move a little bit closer,
I don't want to miss a beat.

Take everything you know.
Throw it out the window.
We can drive through the streets.
The space between,
You're the only girl I'll ever need.

Give me looks, give me everything you've got.
Ready set let's go.
So get on your feet.
I'll take it to the floor.
Oh here we go.

When everything's alright,
I'll take the weight of the world off your shoulders.
Let's make it count oh, lets make it count.
I'll show you that you're worth it.

Take everything I know,
I'll throw it out the window,
Alright.

We're gonna get closer now,
Just a little bit closer.
We're gonna get closer now,
Just a little bit closer.
Just a little bit closer.
