"What A Day In London"

Visit "[What A Day In London](#)" on MotoLyrics.com

Way behind the water hole
The way behind in London Town
Down once more the way you from home
Long the way you on it down

You show the way that I can do
Making summer, and the spring
Every day, another day
In the morning, I can wing!

What a day in London, after all it's time
After all, it's special
And I can make it's true
And everything we got to make
Watching the News and I can do
I cannot takes the time
Watching the day that we not got
The day we got the truth
