"Further"

I don't know what to say
You kick me away
Roll me into a ball
Then you kick me away
Oh so far away
But when I reach the wall
Cause I, am scared beyond
Insane
I think that you're to blame
When all I feel is hurt
It makes me want to go further
Further, roll right over you
I go further, further, roll right
Over you
I don't know what to say
You kick me away
Roll me into a ball
Then you kick me away
Oh so far away
But when I reach the wall
Cause I've got my friends, we
Get high they think she's shit,
Who'd wonder why
When we hang around, you
Drag me down
I can't look up you're all around
I keep falling down
