Let the wind
Blow me to eternal blizz
I wanna know what your final answer is
Follow me you can have my sanity
You can have my dignity
Set me free

Take me far away from here
Before I close my eyes
Take me far away from here
Before I lose my mind

Born again in a world that doesn't care
Wondering if this life would take me there
Follow me you can be my enemy
You can be my destiny
Set me free

Take me far away from here
Before I close my eyes
Take me far away from here
Before I lose my mind

Take me far, take me far away from here
Before I lose my mind

Where do we go now baby
where do we go
Feel the soul inside of me

Take me far away from here
Before I close my eyes
Take me far away from here
Before I lose my mind

Take me far, take me far away from here
Before I close my eyes
Take me far, take me far away from here
Before I lose my mind
