"Suffocate"

Talk to me

Can you listen to me now

Do you understand

Can you identify?

But it's as if you seem to make a small effort

But you bend you're bending my mind and you try to
suffocate

And smother me

Covered so I can't breathe

We collapse our weakened hands fall together at once
abandoned

They'll force you down and strap you in now we agree
and understand

Speak slowly

You gotta get it all out now

What are you saying?

Just remember we will always be here

Just in case you have been waiting

Waiting to show us something or give us some sign

As if you're gonna suffocate, smothering

Covered so you can't breathe

Gently lure your submission

All the while suspicion grows

So be sick of listening

To senile old and staggering naive youth

Pick us up when we fall down
