"Fairytale"

Listen to the wind who is telling me a history
Of fairytales and love to be
But they left me alone "without the wisdom to get
home"
Fear for your eyes "go away from my life"

You followed me in the rain when all is gone
You followed me in the rain when all is gone away
"Hear my heart"

Listen to the wind, who is screaming out in misery
My fairytale will never be
Now i want to go home "serenity I'll never know"
Fear is my disguise "you walked away from my life"

You followed me in the rain when all is gone
You followed me in the rain when all is gone away
"Hear my heart"
