Darling can't you see  
What losing you has done to me  
Im not the same girl i used to be  
Have a change of heart  
Don't leave me standing in the dark  
Don't let confusion keep us apart  
Come back to me and i'll guarantee  
All the tenderness and love you'll ever need

(Chorus)  
This time i'll be sweeter  
Our love will run deeper  
I won't mess around  
I won't let you let down  
Have faith in me  
Have faith in me

Since you've been away  
I haven't seen the light of day  
Im lost without you can't find my way  
So won't you please be fair  
And let me show how much i care  
Say you'll be mine and answer my prayer  
Come back to me  
And I promise I'll be  
Everything's that bright  
And new your whole life through  
(Chorus) 2x
