I think they're pumping me for information
"Give it up, now"
"Give it up, now"
If it wasn't for my reservations
I'd give in

The lights are low
I'm wearing no foundation
"Give it up, now"
"Give it up, now"
I'm as ready for my close-up
As I've ever been

The other day is when he came 'round knocking
"Let me in, now!"
"Let me in, now!"
Turns out he was selling saviours
Door to door

I told him that I wasn't interested
"Let me in, now!"
"Let me in, now!"
In how he made messiahs up
Like whores

Summer girl
In your autumn dress
You really wind my spring
I must confess

That if it weren't for that look in your eye
I'd take you
One chipped tooth at a time
I'll be your
Best damn friend in the world
But your my oyster
All I want is your pearl

And if it weren't for that look in your eye
I'd take you
One chipped tooth at a time

I'll be your
Best damn friend in the world
But your my oyster
All I want is your pearl
And then you'll get cast out

It's just like you
To bring a lasso
To bring a lasso
To a gunfight

It's just like you
To bring a lasso
To bring a lasso
To a gunfight
To a gunfight

Summer girl
In your autumn dress
You really wind my spring
I must confess

That if it weren't for that look in your eye
I'd take you
One chipped tooth at a time
I'll be your
Best damn friend in the world
But your my oyster
All I want is your pearl

And if it weren't for that look in your eye
I'd take you
One chipped tooth at a time
I'll be your
Best damn friend in the world
But your my oyster
All I want is your pearl
And then you'll get cast out
