Now it's time to dance  
The discotheque is far, but i can hear the rhythm  
So now i stop my car  
I'm going to the bar  
And finally star  
Dancing all around  
Please, take my hands  
And bring me to the moon  
flying together  
you make me feel so fine  
and now i'm gonna tell you  
you are the only one  
i want you tonight

it's the power of pleasure  
the power of dance  
to the disco  
on the dancefloor  
so welcome to my life  
if you wanna move  
this is time to make a party

it's the power of pleasure  
the feeling i need  
to the disco  
on the dancefloor  
so welcome to my life  
if you wanna move  
this is time to make a party
