Come to me my love
One more night, come on
'Cause I don't wanna be without
Without you

In the air tonight, so cold and strange
Winter of loss, when I have changed
She is floating out too soon
So soon

In our room inside
With these ones I wanna hide
She is floating out too fast
Too fast

Come to me my love
One more night come on
'Cause I just wanna talk
With you again

Come to me my love
One more night come on
'Cause I just wanna hold
You close again
