Something is broken  
Deep down inside me  
It was buried a long time  
But now it is set free

It follows my soul  
Like the shadow of a plague  
History or present  
My future is black

Fading to death  
I wish you were here  
I remember yur face  
I'm reminded of my fear

You have destroyed my life  
But I can't forget  
The good times of love  
And the bad times we had

When angels fall down  
We will meet again  
I love you forever  
Am I insane

You're right in my mind  
Since we met first  
Cause I love you  
Until I burst
