In the perfect in between  
I can touch what you've seen  
And the deepest of all horizons  
I can reach your eon  
Where I'll be my heart can't see  
so far I need to free  
Yeah I just want to let me go  
let me go to Rio

INSANE GUITAR

In the perfect in between  
Never high and never low  
Never ever have time for dreams  
false starts for sorrow  
And if you trust you won't get lost  
just believe our paths will cross  
Where to be is not to be  
When the question is how far you wish to see

INSANE GUITAR

In the perfect in between  
Time slows down all around  
Too slow to oversee  
You run around and round  
I can't figure how a small would be  
The smallest pieces of eternity  
Would it be so warm in me  
Losing ground and falling free

INSANER GUITAR

In the perfect in between (X3)  
You'll be fine, I'll will be more than dreams
