Champaign, private flight, flowing through the night  
Morning, take a pill, still the same \*in your brain\*

Party this life away, come with me,  
Now we're standing on the wall that's falling,  
Party this life away, come with me,  
Cause I know exactly where we're going!

You need it, just believe me!  
That is nothing but I came before ya  
I know that love is all we need  
From Moscow to California.  
We need it, just believe me!  
You will see the world spinning for ya  
We've gotta not to loose, we catch just  
Moment, moment, moment

Only road, no return to the past, let it burn,  
Tower height, flashing lights, love is blind,  
your mind\*

Party this life away, come with me,  
Now we're standing on the wall that's falling  
Party this life away, come with me,  
Cause I know exactly where we're going!

You need it, just believe me!  
That is nothing but I came before ya  
I know that love is all we need  
From Moscow to California.  
We need it, just believe me!  
You will see the world spinning for ya  
We've gotta not to loose, we catch just  
Moment, moment, moment
