Rain song, so beautiful my dream overcome
Rain song, rain song, so beautiful my dream overcome

Drives me crazy, look on the side, the lighter side
Set in store that split the night, that I bring pain
Put a word to these, this thin line greased
I can't see fingers stain my gold

Sweet clover, sweet clover, sweet clover, sweet

Which side you on? Which side you on?
The silence near the battle cry, hollow victory
Which lie do you own? Which lie do you own?
The lines divide, I walk away, blazing sun sets on my
back

Sweet clover, sweet clover, sweet clover, sweet

I can't despise them, inside them
Inside them I am, inside them I am
Inside them I am, inside them I am

Help me God
The silence near the battle cry, hollow victory
Which lie do you own? Which lie do you own?
The lines divide, I walk away, blazing sun sets on my
back

Sweet clover, sweet clover, sweet clover, sweet

I can't despise them, inside them
Inside them I am, inside them I am
Inside them I am, I can't despise you
Inside you, him, inside him when we might be down
