You create a misery  
Have your cake and eat it  
Take your plane  
Make history  
And pray we're gonna need it  
Call it fame  
Call it fact  
Call all  
But dont call it that  
And well just say you made it

Out of my way im running  
im gonna catch you if i can  
Out of my way im coming  
Im gonna catch you if i can

cchorus:  
Your breaking my heart tears in my eyes  
Nothing but pain and nothing but lies  
Your breaking my heart i love you so  
Nowhere to hide and nowhere to go
