I can feel the earthquake  
When I say your name  
Hands up in the air  
Take away the fear  
Feel the light all around  
Takes a lot to knock me down  
Then you blow it like a hurricane  
Oh you spin me around  
London back into name of love  
Tokio San Tropez .. name of love  
Trapped in the name of love

All the infusion shut down on me  
Cut up somebody .. fashion high .  
Help me come down help me come down  
Your love .. boy you can watch my love come down  
London back into name of love  
Tokio San Tropez .. name of love  
Trapped in the name of love

I can feel the earthquake  
When I say your name  
Hands up in the air  
Take away the fear  
Feel the light all around  
Takes a lot to knock me down  
Then you blow it like a hurricane  
Oh you spin me around  
London back into name of love  
Tokio San Tropez .. name of love  
Trapped in the name of love
