One single drop, sweat, freeze
Can round you up, yeah
That's all I am going to say,
Give me your heartbeat.
My body is on alert
So don't keep asking me
Cause I just won't say, yeah

Dancing in the air
I am single I don't care

One single eerie tease,
Can do the trick yeah
That's when I am going to slide,
And get you deep,
When every hope has died,
That's just what I will say,
Let's keep on living

Feel the rhythm, do you feel it
Feel the rhythm, rock, hit up, and feel it.
I am going to rise and hurry,
Going to rock, hit up, yeah
