

Sunny Side of the Razor **"Jump On The Polar Express"**

Visit "[Jump On The Polar Express](#)" on MotoLyrics.com

You can see the night train coming
Destined for your stars and dreams
Are you going to step back wondering
Or are you going to get on it

Jump, jump up don't fear,
We all fear, just get on
One life to live, see what's there,
Travel the night, travel the day
Slowly open your eyes look
See your purpose in life
Feel the butterflies inside and
Ride the night a thousand miles an hour

Explore, what you can do,
Not what you can't do, it's all in you,
Look in the dark, a screen is lit,
A movie is named after you

The Polar Express is coming tonight
Step on and go, just keep the strength girl
