Fight all the lies
-You make me feel the same
Do you feel that way?
Are you sick like me?
Sex is not it, sex is not it.
That's not where my tongue is a razor,
Will you kiss me baby?

Can't get it of my mind,
Can't get it off this time,
Can't hurt you more again,
Can't hurt you.

Help this inside, help me
-I am drowning in black sea
Lift this dark sky over me...
So you feel that way? So you are sick like me?
Let sex addict, let sex addict,
That's where your tongue is a razor,
Will you kiss me baby?

See, I won't slit my wrists again,
It's a game that never ends,
This damn passion won't descend,
It's all or nothing.
