Your body feels so right right right right right
Your body feels so right right right right right
Your body feels so right right right right right
That boy is working you- right right right right

That boy is working you
Be careful what you do
They say he's nothing
But trouble with an attitude
Well-meaning intervention
My friends with good intentions
Say if you don't walk away,
Girl you must be crazy

They don't see through these eyes
They don't feel with this heart
They don't know what it's like
They're not kissin' your lips
They're not touching like this
I feel the passion and the fire ignite me

-chorus-

I don't care what they say,
I don't care what they do
They could lock me up forever,
Try to stop me loving you
They tried to keep romeo and juliet apart
Baby, doesn't matter what they say
I only listen to my heart

--

I don't care what they do
Nothin's gonna stop me lovin' you
I don't care what they say
I'm gonna love you anyway

Your body feels so right
Laying by my side
And if the world should end tonight
Baby I'd be satisfied
I know you're a better man

Sorry they don't understand
You make me feel like i,
Like I've never felt before

They don't see through these eyes
They don't feel with this heart
They don't know what it's like
They're not kissin' your lips
They're not touching like this
I feel the passion and the fire ignite me

Chorus

Nobody can tell me how to feel
Nobody can show me what is real
Words can't change what I know is true
Nothin's gonna stop me lovin' you

They don't see through these eyes
They don't feel with this heart
They don't know what it's like
They're not kissin' your lips
They're not touching like this
I feel the passion and the fire ignite me

Chorus x2

I don't care what they do
Nothin's gonna stop me lovin' you
I don't care what they say
I'm gonna love you anyway-love you any-love you any-
love you any-love you any-*repeat til fade*
