I lost the key to the door of my perception
I don't think I can make it through the night
the T.V.'s on but I got a bad reception
it seems the grass took a walk to the other side
oh, it's breakin' my heart in two
the thrill is gone and so are you
But I don't wanna lose you now
I try to pull myself through somehow
your smile is all it takes to keep me from givin' up
and if there's anyone in my chart, you're the top
I didn't know that your eyes were on the highway
you never said we were headin' for a fall
I always thought that you tried to see it my way
but now I see that the writing's on the wall
oh, I'm willing to set you free
but realise what you mean to me
'Cos I don't wanna lose you now
I try to pull myself through somehow
your smile is all it takes to keep me from givin' up
and if there's anyone in my chart, you're the top
Solo
there is a personal feeling
to everything that you do
baby, baby one thing is for certain
the one for me is you, baby you
And I don't wanna lose you now
I try to pull myself through somehow
your smile is all it takes to keep me from givin' up
and if there's anyone in my chart, you're the top
you're the top
you're the top
