"Psychedelic Trip"

After five minutes you're like "What the fuck is that?"
Now here's where it gets really crazy
You are going through a psychedelic trip
You're not gonna go crazy, you're gonna go fucking
insane

Everybody in their life, if you live, you know,
And you haven't had a heavy psychedelic experience,
And you haven't gone in an isolation tank,
You've missed out.
You've missed out on a huge chunk of what life really
is.

Life is a massive fucking mystery
And there's only a few different ways to really crack
below the surface of that mystery
And the best way is psychedelics
