Dj Zany ''World Belongs To You''

Visit "World Belongs To You" on MotoLyrics.com

Reach for faith inside of you Feel the light surrounding you We are gonna change the world again, again

Suffer for your sanity
Break the chains and you'll be free
Take me back to where it all began

The world belongs to you (to you [?x])

The world belongs to you

Reach for faith inside of you Feel the light surrounding you We are gonna change the world again, again

Suffer for your sanity Break the chains and you'll be free Take me back to where it all began

The world belongs to you

Reach for faith inside of you Feel the light surrounding you We need them dreams beyond the light The universe is after night

The world belongs to you [3x]

The universe is after night
The world belongs to you [4x]

Reach for faith inside of you Feel the light surrounding you We are gonna change the world again, again

The world belongs to you
