Somebody's honey been away too long
Somebody waitin' at home
Somebody's learning that they're not so strong
Sittin' there dreamin' alone

Well, nothin' seems to matter since it's been like this
Nothin' seems to move me at all
My heart's about to shatter since we last kissed
I'm hangin' on from call to call

And hopin', please be San Antone
Please be on the phone
Send your love back home to me

Anything you tell me is gonna be okay
Anyway the words wanna walk
Any news is good news that I hear you say
We could talk about the weather, talk about the dog

Just enough to hear you take another breath
Just enough to soften the fall
I'm gonna make my day until the next sunset
Hold me back from climbing the walls

And hopin', please be San Antone
Please be on the phone
Send your love back home to me

Please be San Antone
Please be on the phone
Send your love back home to me
Send your love back home to me
