Feels like the raindrops

Hold my hand, let's chase the sun
We both know something's begun
Nothin' feels that real without you
Wanna learn so much about you
Shinin' star, I've seen your face
Everything falls into place
Nothing else
Seems to matter (matter, matter)
You bring me to life

Feel so lonely
Won't you show me
Where I need to be
You bring me to life

Feels like the raindrops on my skin
You reach me somewhere deep within
You make my body come alive (you bring me to life)
I'll whisper things ya never knew
I can't believe that tonight I'm here with you
You make my body come alive (you bring me to life)

Feels like the raindrops (x8)

See it burning in my eyes
Don't want words
Don't want no lies
They say more than what is spoken
Promises always get broken (broken, broken)

Feel so lonely
Won't you show me
Where I need to be (you bring me to life)

Feels like the raindrops on my skin
You reach me somewhere deep within
You make my body come alive (you bring me to life)
I'll whisper things ya never knew
I can't believe that tonight I'm here with you

You make my body come alive (you bring me to life)

Feels like the raindrops (x8)

You bring me to life

Feels like the raindrops on my skin

You reach me somewhere deep within

You make my body come alive (you bring me to life)

I'll whisper things ya never knew

I can't believe that tonight I'm here with you

You make my body come alive (you bring me to life)

Feels like the raindrops on my skin

You reach me somewhere deep within

You make my body come alive (you bring me to life)

I'll whisper things ya never knew

I can't believe that tonight I'm here with you

You make my body come alive (you bring me to life)

Feels like the raindrops (x8)

You bring me to life
