Time heals, time heals old wounds  
Bad habits die hard, bad habits die hard  
Tired of, tired of self  
Tired of selfinfliction, selfinfliction, selfinfliction  
No more leaving morals at the door  
Cut out the cancer, time to settle the score

Hood-winked divine, partners in crime

Present to you the gift that shines  
Two hands will deliver, two hands will deliver  
Present to you the gift that shines  
Reward gift that shines perfect day

impact, impact of pride  
Unwanted burdens, unwanted burdens  
Conflict, conflict will bring  
Conflict will bring aggression, bring suppression, bring  
depression  
No more leaving morals at the door  
Cut out the cancer, time to settle the score

Hood-winked divine, partners in crime

No honour amongst thieves
