You 've been crying like there ain't nothing for you
I 've seen you loose all you can
You 've seen signs that say the game is over now
You fear you loose in the end

And it 's easier for them you say
It 's easy they were made so strong

Let me keep dreaming
Let you and I belong here
Shining all the way
Always holding on through every new
through every night
A dream is all we need

I know there ain't nothing in this world for you
I 've seen them taken away
You fought hard enough to make it a way through
Still lying half way there

And it 's easier for them we say
It 's easy they were made so strong

Let me keep dreaming
Let you and I belong here
Shining all the way
Always holding on through every new
through every night
A dream is all we need

Let me keep dreaming
Let you and I belong here
Shining all the way
Always holding on through every new
through every night
A dream is all we need

Keep dreamin'...
