Listen what they say about me  
And watch how they act when I'm around  
And listen what they say about me  
I try to talk but they just turn around

And it didn't take that long for me to notice  
That all these people were me  
And it didn't take that long for me to notice  
How fake you could be

I am what you pretend to be everyday

Thank you for trying  
But I'd rather walk away

Listen what they say about me  
And watch how they act when I'm around  
And listen what they say about me  
I try to talk but they just turn around  
And it didn't take that long for me to notice  
That all these people were me  
No it didn't take that long for me to notice  
How fake you could be

I am what you pretend to be everyday

Thank you for trying  
But I'd rather walk away

I am what you pretend to be everyday  
Thank you for trying  
But I'd rather walk away
