"Neon"

Right here, right now
We've got everything but one light out
You shine for me
Illuminated by the chemistry

Every touch, every kiss is electric
I'm going underneath the neon

Neon light (neon light, neon light, neon light)
Neon light (neon light, neon light, neon light)
Neon light (neon light, neon light, neon light)
Neon light
Underneath your neon light

Breathe in, breathe out
Slow the tempo of my heartbeat down
My pulse races
Sinking deeper into your embrace

Every touch and every kiss is electric
I'm going underneath the neon

Neon light (neon light, neon light, neon light)
Neon light (neon light, neon light, neon light)
Neon light (neon light, neon light, neon light)
Neon light
Underneath your neon light

Touching (touching), we fade in a place (we fade in a place)
A chemical reaction (a chemical reaction)
Release the feeling
Let it fade so (Let it fade so)
Let the night (Let the nights)
Let the stars run high
I need only your love
To shine

Underneath your neon light (neon light, neon light, neon light)
Neon light (neon light, neon light, neon light)

Neon light
Sun is shining, shining (neon light)
Underneath the neon light
