People runnin on empty

Rock the sympte

Outside 2001

Other side of the sun

Running here we go tumblin

Few solutions honey they polluted the future

Got me thinking of a new thing

Revolverlution

Computer souls controlled by confusion

You be clubbin while the world around you crumblin

Think its funny? Bunch of crash test dummy's

If all this shit means the end of my money

This is a stick up, off go the pagers and celly's

Us dollar, ain't worth what it's printed on,

Backed by the pentagon, sounds like babylon,

So i babble on, some of us stuck

In them barbershops and them hair salons,

While the crash comin at your ass...

While the crash comin at your ass like a bomb.

Now it all comes tumblin, runnin

Time is runnin runnin crash is coming,

Break the bank, spinning since the beginning,
Now it all comes tumblin, crumblin
Time is runnin runnin crash is coming,
Break the bank, spinning since the beginning,
Willie dynamite, time to cry and no ice.
Y2k, fallin out of the sky, so its chosen
Your ice is frozen, don't cry dry your eye
Ain't this a bitch, fuckin glitch. Mother fucker what
The count down to my account, count it down
Ashes to ashes, dust to dust, hush make that head
bust.
Last hour no control tower
Making new may flowers, fightin new powers
Have you forgotten, the other side of rotten,
Picking electronic cotton diggin digital ditches,
Lookout, lookout for the crash...crash...crash..
Have you forgotten, have yor forgotten
Y2k, that's the question,
What the fuck is up got the 85 guessin,
I told y'all for y'all protection
Got me a name change, a pair of smith an wessuns
Starring crescents mad packed with the lessons,
Figure 5% got the 10 counting blessings
Programmed by programs got you bowing to the man.
Avoid collisions in mid-air, medicaid and welfare
Zero zero what the fuck do you care?

All the lights be out, you can't get nowhere.

All around, that's why i found tony brown

The world we know, it's going
down...down...down...down
