"Fade Away"

Flowers and gardens, abandoned from view.
Cry for their love, like I do.
People throw their love to whisper, think of all the boys
who've kissed her.
But to me it doesn't matter they, fade away they fade
away.
Fade away.
When we meet we feel together, now she's gone I can't
forget her.
Love is chance but time won't let her, fade away and
fade away.
Fade away, fade away.
(Guitar Solo)
A lot of flowers in this world are never seen.
I wanna hold your love, I wanna win your love for me.
Fade away.
For me there was no sunshine, for me there was no
rain.
For me until I meet you, every day was the same.
Fade away, fade away, fade away.
Fade away, fade away, fade away, fade away.
Fade, fade, fade, fade away.
Fade.....away, fade away, fade away, fade away, fade
away, fade away.
