very quietly.
You're discussin'
your philosophy.
There's a long list
of what's wrong with me.
And you go on
talkin' endlessly.
Now, what's the problem?
What's the question?
What's the answer?
Where's this heading?
You keep talkin'
Where's it goin'?
If there's an answer,
I don't know it.
Please!
You're killin' me!
Please!
You're killin' me
with all these questions.
I been tryin'
to get along with you.
Doesn't matter
what I try to do.
Once you start in
there's no stoppin' you.
Now, what's the problem?
What's the question?
What's the answer?
Where's this heading?
You keep talkin'
Where's it goin'?
If there's an answer,
I don't know it.
Please!
You're killin' me!
Please!
You're killin' me
with all these questions.
You're explaining
very patiently.

I'm a problem,
what to do with me?
I keep listenin'
but I just don't see...
Now, what's the problem?
What's the question?
What's the answer?
Where's this heading?
You keep talkin'
Where's it goin'?
If there's an answer,
I don't know it.
Please!
You're killin' me!
Please!
You're killin' me
with all these questions.
Please!
Please!
Please!
Please!
Please!
Please!
You're killin' me!
You're killin' me!
