I don't have anything I got to do all day
Lie in bed and watch TV
I don't have anything that I need to say
I know that you're hurting too, I know you're all alone
I know that you're coming back, I worked it out wrong
Worked it out wrong
I'll be silent, I'll be strong
I'll wait for you to come to me
And I know it won't be long
I know that you're hurting too, I know you're all alone
I know that you're coming back, I worked it out wrong
I worked it out wrong

Time, time means nothing
No nothing, means nothing when you're gone
Baby I'm lonely, and I'm sorry
I was wrong
I worked it out wrong
I worked it out wrong

I know that you're hurting too, I know you're all alone
I know that you're coming back, I worked it out wrong
Worked it out wrong
Time, time means nothing
No nothing, means nothing when you're gone
I'm lonely and I'm sorry
I was wrong
Worked it out wrong
I worked it out wrong
I worked it out wrong
