Beginning Today  
Beginning today I promise you  
I give my heart to you  
Beginning today I promise to  
Never part from you  
From now on I will be right by your side  
And I swear other things I'll put aside  
Beginning today  
Beginning today  
(I promise you I give my heart to you)  
Beginning today there's no one else  
On my mind  
Beginning today there's nobody else  
Right here inside my heart  
From now on I will be right by your side  
And I swear other things I'll put aside  
From now on there'll be no one else on my mind  
Beginning today (Beginning today)  
Beginning today  
(I promise you)  
Beginning today  
(I give my heart to you)  
From now on I will be right by your side  
And I'd swear other things I'll put aside  
From now on there'll be no one else on my mind  
Beginning today (Beginning today)  
Beginning today  
And I'd swear other things I'll put aside  
From now on there'll be no one else on my mind  
Beginning today  
Beginning today  
(I promise you I give my heart to you)  
Beginning today
