"Feel So Strange"

Visit "[Feel So Strange](#)" on MotoLyrics.com

I can only remember
The way we used to be
But now you're gone
And you left me broken hearted
When you went away
That's the time when the music ended
You will always be with me
But only in my mind
Cause now you're gone
And I'll never see you again
And if by chance someday
You'll change your mind
I'll still be waiting for you

Refrain:

Gone are the days
When there was always you and me
Gone are the days
And now what's left are memories
Where are the days
When all the world was ours to share
Gone are the days
I just want you to know that I still care
Ooh?

You will always be with me
But only in my mind
Cause now you're gone
And I'll never see you again
And if by chance someday
You'll change your mind
I'll still be waiting for you

Refrain

Gone are the days?
Ooh?
