I didn't know
You'd be moving my heart to love you
And I, I don't wanna let go
I've fallen hard for you
But you'll be gone so soon
You'll take my heart but
That's what you should do
So I wanna do just one thing before you go
Refrain:
I will love you honey
Love you more than I could
I will love,
Love you honey
Love you more than I would
I'll love you honey
Love you, Love you more than I should
It hurts me now
To think of letting you go so soon
But you know I can't stop you
Your dreams are my dreams too
But I'll be here for you
And this you've got to know
So I wanna do just one thing
Even when you go
Repeat Refrain
Our times together
Is what I'll treasure forever
So just remember, just remember
That I will never ever, never ever stop
From loving you
Repeat Refrain 3x
