No! No!
No! No!
No! No!
No! No!

Hey baby, baby
Whatcha want, you're calling me
Dumb standing around the lunch truck so greedily

Hey baby, baby
Just another dog I see
Rolling in the dirt, you're barking up the wrong tree

So maybe you're crazy
Never get a bone
Or you're just too much man for me
Yeah, maybe you're crazy
Never catch me
You can't make me

Had enough
I've had enough

Cat cat calling and I just don't care
Cat cat calling so I'm out of here

No! No! Never gonna hear you
No! No! Never to be near you
Never to be near you

Hey baby, baby
Whatcha want, you're stalking me
Bang bang your hammer
Caveman sensibilities

So maybe you're crazy
Never get a bone
Or you're just too much man for me

Hey baby, baby
Acting out a fantasy

I'll get you so bad you're crying for my sympathy

Had enough
I've had enough

Cat cat calling and I just don't care
Cat cat calling so I'm out of here

No! No! Never gonna hear you
No! No! Never to be near you
Never to be near you

No! No!
No! No!
No! No!
No! No!

Hey baby, baby
Acting out a fantasy
I'll get you so bad you're crying for my sympathy

Cat cat calling and I just don't care
Cat cat calling so I'm out of here

No! No! Never gonna hear you
No! No! Never to be near you
Never to be near you
