"Turn You Down"

Visit "[Turn You Down](#)" on MotoLyrics.com

Keep on checking 'round inside, but I can't can't find it
Wasted all my time 'cause I won't convince you
You tease me
You tease me
But it's not just that

Cause now I'm making up the sounds of feeling
nothing
Played me, it's a joke and you're just confusing
You taunt me
You taunt me
But it's not just that

Cause now I'm crazy cracked up basket case
And you're leaving
You're my one time lover, untrue teasing
In season

And I should turn you down (down) down (down) down
And let you go (go) go (go) go
When you come, come back
'Cause I know
I know know know know

You can't keep coming 'round pretending it's all peachy
Spending all my funds on your wishy-washy
Deceive me
Deceive me
But it's not just that

Because I'm watching memories of laughing
Pictures on my bed, were you just fun hunting?
You kill me
You kill me
But it's not just that

'Cause now I'm crazy cracked up basket case
And you're leaving
You're my one time lover, untrue teasing
In season

And I should turn you down (down) down (down) down
And let you go (go) go (go) go
When you come, come back
Because I know
I know know know know
I know know know know

I should turn you down (down) down (down) down
And let you go (go) go (go) go
When you come, come back
Because I know
I know know

I should turn you down (down) down (down) down
And let you go (go), just go
When you come, come back
Because I know
I know know

I should turn you down (down) down (down) down
And let you go (go), just go
When you come, come back
Because I know
I know know know know
