When I saw you the first time, I wish you will be mine.
If we could be together, we could love us forever.
You are the one that I need, my love for you is sweeter
than sweet.
But when I need you, do you need me, too?
If you say yes, God bless (you).
If you say ne, I can call you Silly Ho.
We can do all the things we wanna do, because I love
you.
My love is something like sweet, you can never beat.
If you come to me, we'll always see (the right way).
But if you love me, you will see all the beauty things (of
love).
Of course you've got more sex-appeal, but suddenly,
you will feel: You love me.
Is there a little bit of hate in your heart,
your love will never be an art.
If you feel much love for me,
we can be together for eternity.
